

Lull Telehandler Part

Lull Telehandler Part - Lull telehandlers have been supplying precision load placement since 1959. Whether the task involves transferring loads, positioning heavy steel or landing loads on scaffoldings, using a Lull telehandler would help make the task go faster and easier. These units are complete along with the patented Stabil-Trak stability system in order to ensure operator confidence.

The horizontal placement system by Lull is able to provide 80 inches of boom travel for precision placement capabilities. There are also several optional Lull accessories for their telehandlers in order to help finish whichever work.
