

Rockwell Parts

Rockwell Part - AxleTech International is a leading supplier in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its clients' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for service, technology, delivery and quality. They believe in working in an atmosphere which encourages the highest integrity with empowered collaboration, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and providing a safe environment for their workers to work in. Also, they have implemented numerous programs in the organization to be able to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with any questions or comments, as they are happy to promote and share this policy with a greater knowledge of their efforts. They are very devoted to improving and preserving the surroundings. AxleTech has an EHS program which not only protects the environment but which also actively protects their neighbors and staff too.

AxleTech specializes in the designing and manufacture of planetary axles used for both military and commercial applications, that can comprise anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech specially designs axles to be able to meet certain application demands. They have over one thousand various axle specs in their existing offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in several military and commercial applications. They offer complete axle assemblies for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product collection.
