

Spreader Bars for Forklift

Spreader Bar for Forklifts - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader manufacturer all-around the world. They are a dedicated manufacturer of spreaders intended for many different applications like for instance the swop bodies, trailers, and handling of containers.

Engineering is done in-house by means of utilizing all the latest FEM tools and CAD systems. The ELME company presently has over one hundred twenty five staff members. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the globe.

The ELME product range offers spreaders used for a variety of trailer and container handling operations. Some of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a wide variety of additional parts.

Production and manufacturing of ELME products are established in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by making use of quality parts in order to ensure reliability and top standards. Major characteristics of ELME include design simplicity, market response and inventive modular spreader concept.
